Early Christian Lives Jan 23 2023 Written between the mid-fourth and late sixth centuries to commemorate and glorify the achievements of early Christian saints, these six biographies depict men who devoted themselves to solitude, poverty and prayer. Athanasius records Antony's extreme seclusion in the Egyptian desert, despite temptation by the devil and visits from his followers. Jerome also shows those who fled persecution or withdrew from society to pursue lives of chastity and asceticism in his accounts of Paul of Thebes, Hilarion and Malchus. In his Life of Martin, Sulpicius Severus describes the achievements of a man who combined the roles of monk, bishop and missionary, while Gregory the Great tells of Benedict, whose Rule became the template for monastic life. Full of vivid incidents and astonishing miracles, these Lives have provided inspiration as models for centuries of Christian worship. *Mr. Popper's Penguins* Feb 12 2022 Mr. Popper and his family have penguins in the fridge and an ice rink in the basement in this hilarious Newbery Honor book that inspired the hit movie! Country Life Dec 18 2019 "In this selection of notes which made up the pre-war and wartime Country life column in The Spectator, H. E. Bates explores, in characteristically unsentimental manner, country life at a time when the great momentum of scientific and technological advances brought about increased knowledge and interest in a safer, more accesible countryside, and when agriculture was seen by him to be an arm of defense during the Second World War. This selection gives us a vivid account of the preoccupations of an English country man at a time of great national upheaval." --Taken from front jacket cover.

A Polar Affair Jun 16 2022 George Murray Levick was the physician on Robert Falcon Scott's tragic Antarctic expedition of 1910.

Marooned for an Antarctic winter, Levick passed the time by becoming the first man to study penguins up close. His findings were so shocking to Victorian morals that they were quickly suppressed and seemingly lost to history. A century later, Lloyd Spencer Davis rediscovers Levick and his findings during the course of his own scientific adventures in Antarctica. Levick's long-suppressed manuscript reveals not only an incredible survival story, but one that will change our understanding of an entire species. A Polar Affair reveals the last untold tale from the Heroic Age of Antarctic Exploration. It is perhaps the greatest of all of those stories—but why was it hidden to begin with? The ever-fascinating and charming penguin holds the key. Moving deftly between both Levick's and Davis's explorations, observations, and comparisons in biology over the course of a century, A Polar Affair reveals cutting-edge findings about ornithology, in which the sex lives of penguins are the jumping-off point for major new insights into the underpinnings of evolutionary biology itself.

Lapidarium Jun 04 2021 Inspired by the lapidaries of the ancient world, this book is a beautifully designed collection of true stories about sixty different stones that have influenced our shared history The earliest scientists ground and processed minerals in a centuries-long quest for a mythic stone that would prolong human life. Michelangelo climbed mountains in Tuscany searching for the sugar-white marble that would yield his sculptures. Catherine the Great wore the wealth of Russia stitched in gemstones onto the front of her bodices. Through the realms of art, myth, geology, philosophy and power, the story of humanity can be told through the minerals and materials that have allowed us to evolve and create. From the Taiwanese national treasure known as the Meat-Shaped Stone to Malta's prehistoric "fat lady" temples carved in globigerina limestone to the amethyst crystals still believed to have healing powers, Lapidarium is a jewel box of sixty far-flung stones and the stories that accompany them. Together, they explore how human culture has formed stone, and the roles stone has played in forming human culture.

Serving as a rehabilitation manager during the initial phase of the three-month effort, Dyan deNapoli--better known as "the Penguin Lady" for her extensive work with penguins--and fellow volunteers de-oiled, nursed back to health, and released into the wild nearly all of the over 19,000 affected birds. Now, at the tenth anniversary of the disaster, deNapoli recounts the extraordinary story of the world's largest and most successful wildlife rescue--From publisher description.

Furry Nov 28 2020 There is a little boy named Mac, who had a best friend named Furry, the penguin. Furry is Mac's Emotional Support Partner Stuffie. Mac has many challenges, and with Furry, they go everywhere and do everything together. How that came to be was 'just' another story. Furry, The Little Penguins That Could. Mac had learned that a 'Stuffie' friend was just what he needed to help him through the 'tough stuff' of living with his disabilities. Furry helps him when he can't talk, to steady his arms to walk or roll. To calm him when he's anxious or frustrated, when he struggles with NEW, or just too much! Or when he is scared. Mac's Mom, teachers, and friends saw the difference the little stuffed penguin made in his life, and soon other children found some of the same love and hugs with their Furry. That gave Mom another idea. We could write a story to help other children. The idea for "Furry, The Little Penguins That Care" was born. A book to help children cope with the range of emotions children go through each day and how they can share their lives with their own Emotional Support Partner Stuffie. You know 'Stuffies' can become REAL in the hearts of children and the adults who believe. One day, Mac and his little penguin named Furry had a wish to get Furrys to children around the globe who are sad or scared or just needed a friend to go on adventures with. And that is a whole lot of Furry. But Mac knew that helping others was important. Mac had traveled the world wearing his little Red Shoes, raising awareness about Fetal Alcohol Syndrome, one of his many diagnoses, and even in Antarctica, he could educate others. He knew that miracles are possible. He was on his iPad when he learned that Countrytime, Lemonade asked kids to do a project, and they would donate money to do so. Mac wrote a letter using his talker and with his computer to tell Countrytime about his project. Mac likes writing letters to companies to advocate for kids like him. He started a virtual lemonade stand to raise money to buy Furry the Penguins to put into police officer vehicles to give to kids in traumatizing situations. He sold his lemonade for just 5 cents, and one person bought 300 glasses in one day. That let him buy two whole Furry the Penguins to give to two hurting children. More people bought lemonade, and Mom added her pretend gluten-free cookies for 10 cents. His teacher Mrs. C with Mac's help had been stuffing Trauma bags for our local hospital, giving children a new Furry and a book to read while at the hospital. The Furry Project had been launched. But he can help more children and get a whole lot of Furry the Penguins. By buying this book will help him Stuff Furry Emotional Support Partner bags in trunks of police cars, trunks of social workers who help children in foster care where he used to live, and for children who are sick or have surgeries as he has had, or for kids who have lost someone they love. Police officers and others have told us the Furrys magic works. To learn more about "The Furry Project," visit www.furrythepenguin.com.

The Penguin Book of Hell Oct 28 2020 "From the Bible through Dante and up to Treblinka and Guantánamo Bay, here is a rich source for nightmares." --The New York Times Book Review Three thousand years of visions of Hell, from the ancient Near East to modern America From the Hebrew Bible's shadowy realm of Sheol to twenty-first-century visions of Hell on earth, The Penguin Book of Hell takes us through three thousand years of eternal damnation. Along the way, you'll take a ferry ride with Aeneas to Hades, across the river Acheron; meet the Devil as imagined by a twelfth-century Irish monk--a monster with a thousand giant hands; wander the nine circles of Hell in Dante's Inferno, in which gluttons, liars, heretics, murderers, and hypocrites are made to endure crime-appropriate torture; and witness the debates that raged in Victorian England when new scientific advances cast doubt on the idea of an eternal hereafter. Drawing upon religious poetry, epics, theological treatises, stories of miracles, and accounts of saints' lives, this fascinating volume of hellscape illuminates how Hell has long haunted us, in both life and death.

Elvis Presley Apr 14 2022 A vibrant, sympathetic portrait of the once and future king of rock 'n' roll by the award-winning author of Shiloh and In Country To this clear-eyed portrait of the first rock 'n' roll superstar, Bobbie Ann Mason brings a novelist's insight and the empathy of a fellow Southerner who, from the first time she heard his voice on the family radio, knew that Elvis was "one of us." Elvis Presley deftly braids the mythic and human aspects of his story, capturing both the charismatic, boundary-breaking singer who reveled in his celebrity and the soft-spoken, working-class Southern boy who was fatally unprepared for his success. The result is a riveting, tragic book that goes to the heart of the American dream.

My Penguin Year Sep 19 2022 A "remarkable memoir" (Nature) of life with an emperor penguin colony, gorgeously illustrated with 32 pages of exclusive photography For 337 days, award-winning wildlife cameraman Lindsay McCrae intimately followed 11,000 emperor penguins amid the singular beauty of Antarctica. This is his masterful chronicle of one penguin colony's astonishing journey

of life, death, and rebirth—and of the extraordinary human experience of living amongst them in the planet’s harshest environment. A miracle occurs each winter in Antarctica. As temperatures plummet 60° below zero and the sea around the remote southern continent freezes, emperors—the largest of all penguins—begin marching up to 100 miles over solid ice to reach their breeding grounds. They are the only animals to breed in the depths of this, the worst winter on the planet; and in an unusual role reversal, the males incubate the eggs, fasting for over 100 days to ensure they introduce their chicks safely into their new frozen world. My Penguin Year recounts McCrae's remarkable adventure to the end of the Earth. He observed every aspect of a breeding emperor's life, facing the inevitable sacrifices that came with living his childhood dream, and grappling with the personal obstacles that, being over 15,000km away from the comforts of home, almost proved too much. Out of that experience, he has written an unprecedented portrait of Antarctica’s most extraordinary residents.

Brief Lives Oct 20 2022 *Brief Lives* (1669-1697) is a collection of short biographical sketches on famous British figures by author, antiquarian, and archaeologist John Aubrey. The work is significant for its unique style, a blend of facts—names, dates, family, important works—and personal anecdotes for which Aubrey combined his skills for research and conversation to compile. Unpublished during his lifetime, the text was pieced together from extensive handwritten manuscripts by numerous editors and scholars, and over the centuries has become a beloved cultural artifact of early-modern Britain. A fascinating figure and gifted researcher in his own right, John Aubrey sought to capture the significance of his era and the people whose contributions to art, politics, science, and philosophy were not only changing Britain, but the world, forever. As a historical record, his *Brief Lives* provides valuable information on such figures as poet John Milton, playwright William Shakespeare, philosopher Thomas Hobbes, and chemist Robert Boyle. But as a work of art, the text humanizes them, reminding its readers that these were people whose desires, imperfections, and day-to-day lives were not unlike our own. We turn to his works to discover that Sir Walter Raleigh was a “poor” scholar “immerst...in fabrication of his owne fortunes,” or to read that Shakespeare, the son of a butcher who worked for his father as a youth, was known to “make a speech” while slaughtering a calf. At times straightforwardly factual, at others filled with gossip, *Brief Lives* is a document of its time that attempts to record a living history of knowledge and influence. Whether it succeeds is beside the point—that it speaks to us centuries on is the heart of the matter, the reason it must be read. A well-known man in his lifetime, Aubrey moved between cultural and political circles with ease, compiling the sources that would later become *Brief Lives*. Although a tireless writer and scholar, he published little during his life. His work, including *Brief Lives*, is thus the product of centuries of diligent research and editing from numerous scholars who understood, as the reader of this volume surely will, that Aubrey’s work deserved to reach the public. With a beautifully designed cover and professionally typeset manuscript, this edition of John Aubrey’s *Brief Lives* is a classic of British literature and biography reimagined for modern readers.
