Try Not to Breathe Apr 19 2020 For fans of Gillian Flynn, Laura Lippman, and Paula Hawkins comes Holly Seddon's arresting fiction debut—an engrossing thriller full of page-turning twists and turns, richly imagined characters, and gripping psychological suspense. Some secrets never die. They're just locked away. Alex Dale is lost. Destructive habits have cost her a marriage and a journalism career. All she has left is her routine: a morning run until her body aches, then a few hours of forgettable work before the past grabs hold and drags her down. Every day is treading water, every night is drowning. Until Alex discovers Amy Stevenson. Amy Stevenson, who was just another girl from a nearby town until the day she was found unconscious after a merciless assault. Amy Stevenson, who has been in a coma for fifteen years, forgotten by the world. Amy Stevenson, who, unbeknownst to her doctors, remains locked inside her body, conscious but paralyzed, reliving the past. Soon Alex's routine includes visiting hours at the hospital, then interviews with the original suspects in the attack. But what starts as a reporter's story becomes a personal obsession. How do you solve a crime when the only witness lived but cannot tell the tale? Unable to tear herself away from her attempt to uncover the unspeakable truth, Alex realizes she's not just chasing a story—she's seeking salvation. Shifting from present to past and back again, *Try Not to Breathe* unfolds layer by layer until its heart-stopping conclusion. The result is an utterly immersive, unforgettable debut. Praise for *Try Not to Breathe* “A brilliant, beautifully written thriller.”—Augusten Burroughs, New York Times bestselling author of *Running with Scissors* “A razor-sharp plot and wonderfully complex characters . . . Seeing the Past with Computers Jun 21 2020 Recent developments in computer technology are providing historians with new ways to see—and seek to hear, touch, or smell—traces of the past. Place-based augmented reality applications are an increasingly common feature at heritage sites and museums, allowing historians to create immersive, multifaceted learning experiences. Now that computer vision can be directed at the past, research involving thousands of images can recreate lost or destroyed objects or environments, and discern patterns in vast datasets that could not be perceived by the naked eye. *Seeing the Past with Computers* is a collection of twelve thought-pieces on the current and potential uses of augmented reality and computer vision in historical research, teaching, and presentation. The experts gathered here reflect upon their experiences working with new technologies, share their ideas for best practices, and assess the implications of—and imagine future possibilities for—new methods of historical study. Among the experimental topics they explore are the use of augmented reality that empowers students to challenge the presentation of historical material in their textbooks; the application of seeing computers to unlock unusual cultural knowledge, such as the secrets of vaudevillian stage magic; hacking facial recognition technology to reveal victims of racism in a century-old Australian archive; and rebuilding the soundscape of an Iron Age village with aural augmented reality. This volume is a valuable resource for scholars and students of history and the digital humanities more broadly. It will inspire them to apply innovative methods to open new paths for conducting and sharing their own research.

Born to be Riled Feb 16 2020 *Born to be Riled* is a collection of hilarious vintage journalism from Jeremy Clarkson. Jeremy Clarkson, it has to said, sometimes finds the world a maddening place. And nowhere more so than from behind the wheel of a car, where you can see any number of people acting like lunatics while in control (or not) of a ton of metal. In this collection of classic columns, first published in 1999, Jeremy takes a look at the world through his windscreen, shakes his head at what he sees - and then puts the boot in. Among other things, he explains: • Why Surrey is worse than Wales • How crossing your legs in America can lead to arrest • The reason cable TV salesmen must be punched • That divorce can be blamed on the birth of Jesus Raving politicians, pointless celebrities, ridiculous 'personalities' and the Germans all get it in the neck, together with the stupid, the daft and the ludicrous, in a tour de force of comic writing guaranteed to have Jeremy's postman wheezing under sackfuls of letters from the easily offended. The Online Advertising Playbook Oct 18 2022 Praise for The Online Advertising Playbook "Finally, someone has documented all we know about online advertising and how to do it right. As much as this confirms that online advertising really works, we know that marketers don't always get it right. The ARF's The Online Advertising Playbook provides critical insight on what sticks and what doesn't in online advertising and marketing." —Greg Stuart, CEO and President, Interactive Advertising Bureau and coauthor of What Sticks "The Online Advertising Playbook's principles, case studies, and strategic insights equip marketers with the best knowledge available. It will help your online advertising achieve the full range of marketing objectives, from lead generation and customer acquisition to driving trial and loyalty." —Tim Kopp, Vice President, Global Interactive Marketing, The Coca-Cola Company "To grow interactive marketing from here we need to institutionalize our wisdom and experience about what works. This book explains, in a disciplined way, what marketers have learned from a decade of massive change." —Ted McConnell, Interactive Innovation Director, Procter & Gamble "The Online Advertising Playbook is a milestone in the maturation of interactive advertising, but also an invaluable go-to guide for managers trying to make smart decisions with their advertising budgets." —Van Riley, Vice President of Research, AOL "The best marketing communication is spawned from what I call 'informed intuition.' After reading The Online Advertising Playbook, I am far better informed on how to optimize the online channel in our advertising and promotional programs. It's a perfect blend of case studies and research-backed learning." —Rod DeVar, Manager, Advertising and Promotion, United States Postal Service "Savvy marketers should take advantage of The

Online Advertising Playbook's findings and principles to get real results." —Chris Theodoros, Director of Industry Relations, Google "A work of wisdom and rigor in the digital space that is as relevant for the newbie as it is for the digerati." —Mike Donahue, Executive Vice President, American Association of Advertising Agencies "This is a must-read for any marketing executive involved in online advertising. It's high time that a book looks at online advertising in the context of an integrative promotional strategy, one meant to set objectives, establish creative strategies, and measure results. The book nicely ties the various components of online advertising to relevant case studies, and the emphasis on measurement and results is refreshing. Not only is it relevant for marketing executives, it would also be a good basic text for any Internet advertising course and a good adjunct to any Internet marketing course." —Henry Assael, Professor of Marketing, Stern School of Business, New York University

Kein Ort für einen Mord Dec 28 2020 Kommissar Thomas Sprengel steht unter immensem Druck. Nach dem gewaltsamen Tod einer Studentin im Schwimmbad des Instituts für Sport und Sportwissenschaft der Uni Heidelberg fordert sein Chef schnellstens Ergebnisse ein. Immerhin eröffnen ihm die Ermittlungen eine Zusammenarbeit mit seiner ebenso bezaubernden wie intelligenten Kollegin Lene Huscher aus dem Dezernat für Sexualdelikte, die er erst kurz zuvor in einem Moment der Frustration schwer beleidigt hat. Seine Charmeoffensive erweist sich jedoch als ebenso heikel wie die Aufklärung des Falles. Rasch bekommen die Kommissare zu spüren, wie einfallsreich und zugleich skrupellos ihre Gegenspieler vorgehen. Als eine äußerst geschickt eingefädelte Suspendierung die beiden nicht stoppen kann, schrecken die Täter auch vor einem weiteren Mord nicht zurück.
