**For nearly 40 years, Oh's Intensive Care Manual has been the quick reference of choice for ICU physicians at all levels of experience. The revised 8th edition maintains this tradition of excellence, providing fast access to practical information needed every day in today's intensive care unit. This bestselling manual covers all aspects of intensive care in sufficient detail for daily practice while keeping you up to date with the latest innovations in the field. Short, to-the-point chapters distill the essential information you need to know for safe, effective care of patients in the ICU. Each topic includes theoretical knowledge, practical methods of treating the condition described, a review of the available evidence, and common pitfalls in treatment and management. Ideal for daily quick reference as well as an efficient review for professional examinations in critical care medicine. -- The new 5th ed. has been completely revised and**

updated.-- New features include, a new appendix providing case studies and treatment plans, plus Key terms and learning objectives.-- New chapters on treatment contexts, infection control and safety, functional motion assessment, pain management, plus many more. An extensive and up-to-date treatment on the topic of recreational therapy, the eighth edition of **Therapeutic Recreation Processes and Techniques: Evidence-Based Recreational Therapy** continues to focus on the practice of recreational therapy, with a philosophy of practice that has been consistent since the first edition in 1982. Like prior editions, this new edition attempts to offer a theory-based, evidence-based, client-centered approach to practice, offering many new references and an expanded discussion of facilitation techniques. This edition also emphasizes aspects of practice rated as critical in recreational therapy and offers information on recreational therapy topics such as the helping relationship, leadership, communication skills, and clinical supervision. This text covers everything occupational therapists need to know about therapy for children. The book focuses on children at many ages and stages in development, comprehensively addressing both treatment techniques and diagnoses settings. As type 2 diabetes continues its rise in prevalence worldwide, there is an increasing need to study it and describe successful treatments. There are several options for treatment, including oral medications, diet and lifestyle modification, and insulin therapy. Knowing which method to select and how to apply it relies on several clinical guidelines that are updated every year by the American Diabetes Association. This new edition of **Medical Management of Type 2 Diabetes** provides care providers with the answers to their questions about implementing care. All of the contributors are experts in their fields, and they define the disease, including the progressive nature of type 2 diabetes; cardiovascular, microvascular, and neurological complications; care methodologies for special situations; and behavior change. All guidelines and standards have been updated with the latest developments in research, advances in medications and medical devices, and new understandings of how to effectively work with the patient. This student-centered overview of the counseling profession exposes you to real challenges faced by experienced practitioners and gives you an unparalleled look at what your professional future may hold. **INTRODUCTION TO COUNSELING, Seventh Edition** covers what counseling is, as well as its history, theoretical orientations, applications, and professional issues. As you become engaged in the process of learning and applying counseling concepts, you'll examine the day-to-day realities of being a counselor, as well as your own motivation for choosing the profession. Finally, experiential and reflective exercises, integrated into every chapter, help you reflect on the material. Barbara Okun and Ricki Kantrowitz's practical introduction to counseling has helped

thousands of readers become effective and empathic helpers. Logical, easy-to-understand, and applicable, **EFFECTIVE HELPING: INTERVIEWING AND COUNSELING TECHNIQUES**, Eighth Edition, continues to use a unique framework to help readers enhance their self-awareness and their understanding of contemporary forces. The book is infused with many case examples, dialogues, tables, and experiential exercises. The authors help readers develop basic helping skills based on empathic responsive listening, introduce them to theoretical principles, and enable them to effectively integrate theory and practice in a way that is appropriate to their level of training. The learning-by-practice format promotes the active integration of the skills that will prepare students for the realities of what it's like to be a helper. **Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.**

Focusing on nutrition and nutritional therapy from the nurses' perspective, **Nutritional Foundations and Clinical Applications: A Nursing Approach**, 7th Edition takes a wellness approach based on health promotion and primary prevention. It offers guidelines with a human, personal touch, using first-hand accounts to show how nutrition principles apply to patients in real-world practice. This new edition incorporates the most current guidelines and information on key nutrition topics throughout as well as expanded coverage on the role of inflammation in common disease. A favorite of nursing students and instructors, this leading nutrition text promotes healthy diets and shows how nutrition may be used in treating and controlling diseases and disorders. **Personal Perspective boxes** offer first-hand accounts of interactions with patients and their families, demonstrating the personal touch for which this book is known. **Applying Content Knowledge and Critical Thinking/Clinical Applications case studies** help you learn to apply nutrition principles to real-world practice situations. **Social Issue boxes** emphasize ethical, social, and community concerns on local, national international levels to reveal the various influences on health and wellness. **Teaching Tool boxes** include strategies for providing nutrition counseling to patients. **Health Debate boxes** prepare you for encountering differing opinions or controversies about food, nutrition, and health concerns. **Key terms and a glossary** make it easy to learn key vocabulary and concepts. **NEW!** Completely updated content throughout incorporates the latest dietary guidelines and most current information on topics such as good vs. bad fats, nutrition during pregnancy, microbiota/probiotics/prebiotics, and more. **NEW!** **Cultural Diversity and Nutrition sections** in each chapter highlight health issues and eating patterns related to specific ethnic groups to help you approach, interview, and assess patients from diverse populations. **NEW!** Enhanced coverage of health literacy equips you with strategies for enhancing patient education

for those with low literacy skills. **NEW!** Additional Nursing Approach boxes analyze realistic nutrition case studies from the perspective of the nursing process. **NEW!** Expanded coverage of inflammation highlights its pivotal role in conditions such as obesity, cancer, heart disease, and diabetes. For upper-class undergraduates or beginning-level graduates in a variety of helping disciplines. A practical, readable text that introduces readers to basic counseling skills and emphasizes counselor development and counseling diversity. **Counseling Strategies and Interventions**, now in its eighth edition, is a comprehensive, skills-oriented, and pragmatic text that provides students with an accessible introduction to the real world of counseling. The far-reaching but concise text includes a variety of learning and application exercises to help students become empathetic and effective members of the counseling profession. The new edition includes current issues and recently published sources to reflect the most contemporary thinking about the helping professions, including new material on supervision, ethical issues, multicultural issues, and the stages of change. **Research Methods in Physical Activity, Eighth Edition**, systematically guides students through the research process, introducing research methods, tools, and analysis techniques specifically for kinesiology and exercise science disciplines, including the subdisciplines of physical therapy, rehabilitation, and occupational therapy. The eighth edition continues its legacy with the authors' trademark humor and is now enhanced with a new full-color layout. This reputable text provides step-by-step information for every aspect of the research process. Part I presents an overview of the research process, from preparing the research plan to understanding ethical issues in research and writing. Part II introduces statistical and measurement issues in research. Part III presents various approaches to research and methodology—including qualitative, quantitative, and mixed methods—while scholarly contributors offer advice for addressing sociohistorical, experimental, epidemiological, and philosophical research questions. Part IV details how to develop and organize research papers and presentations, and it includes guidance for describing results for publication in a scientific journal. Statistical tables and guides are available in the appendix. Joining longtime authors Jerry Thomas, EdD, and Stephen Silverman, EdD, are Philip Martin, PhD, and Jennifer Etnier, PhD, who bring fresh perspectives from the subdisciplines of biomechanics and sport and exercise psychology. Other enhancements to the eighth edition include the following: References have been updated throughout the text to present current research. Part II has undergone a major revision that makes statistical techniques more accessible. A new section on the Physical Activity Guidelines for Americans and other public health initiatives demonstrates epidemiology research in action. The chapter on philosophical

research contains new issues from our increasingly diverse world, challenging students to think deeply. The full-color layout fosters an engaging learning experience and offers an enhanced data presentation. **Research Methods in Physical Activity, Eighth Edition**, employs learning aids that make the technical aspects of the research process approachable and easy to understand. Photos, anecdotes, and humorous stories throughout the text highlight practical applications to keep students engaged. A running glossary and key points emphasize important content. Review questions and prompts invite students to assess and apply their knowledge. **Research Methods in Physical Activity, Eighth Edition**, instills in students the confidence to devise, collect, analyze, and present their research in a competent manner. It is an essential text for all emerging researchers in physical activity. **Impact Therapy** is an active approach to individual and group counseling developed by Dr. Ed Jacobs, Dr. Chris Schimmel, and Dr. Danie Beaulieu. This multisensory approach to counseling is a form of brief therapy that emphasizes making counseling sessions clear, concrete and thought provoking. **Impact Therapy** encourages counselors to combine creative counseling techniques with various counseling theories. This innovative approach to counseling has been very well received by school counselors and therapists from all areas of the mental health field including private practice, mental health and drug and alcohol treatment centers, hospitals, and correctional facilities. A comprehensive, user-friendly guide to marriage and family therapy that takes a holistic view to look at people within the context of their environment. **Family Therapy** helps students understand the process of shifting from an individual psychology paradigm to a cybernetic or systems paradigm. The text is divided into three sections: "The Systemic Framework," "The Practice of Family Therapy," and "The Systemic Practitioner," and it includes historical information, current developments, and ongoing debates. Various family and developmental theories are examined. The family therapy models considered include psychodynamic, natural systems, experiential, structural, communications, strategic, behavioral/cognitive, and several post-modern approaches. Assessment, intervention, training and supervision, research, and epistemological challenges are discussed within the context of practice. **Learning Goals** Upon completing this book readers will be able to: Describe and compare various family therapy models Discuss practical applications for different family and developmental theories Review and assess unique family systems to determine the appropriate family therapy model Understand how concepts with the same name differ in meaning at different levels (i.e. 1 st order versus 2 nd order cybernetics) This seventh edition of **The Handbook of Clinical Psychopharmacology for Therapists** includes the latest updates

on medications for mental health disorders and their side effects along with a new chapter on the effects of withdrawing from medication. This essential guide to psychopharmacology has been adopted as a textbook at universities nationwide and is a must-have resource for every therapist's library. Ideal for anyone embarking on or considering a career in the helping professions, **BECOMING A HELPER, Seventh Edition**, provides an overview of the stages of the helping process while teaching students the skills and knowledge they need to become successful helping professionals. Drawing on their years of experience, Corey and Corey focus on the struggles, anxieties, and uncertainties students often encounter on the road to becoming effective helpers. They also emphasize self-reflection on a number of professional issues. Finally, the authors help students decide if a career in the helping professions is right for them by asking them to take a candid look at the demands and strains they'll face in the field. **Important Notice:** Media content referenced within the product description or the product text may not be available in the ebook version. Disc contains drug monographs on more than 100 intravenous agents in a printable format for patient teaching and 11 appendices with information on continuing education, governmental regulations, and other subjects relevant to infusion therapy. This book addresses the pharmacology and therapeutic application of drugs used to treat heart diseases and hypertension. Additions and updates to the sixth edition include six new chapters on current controversies in cardiac drug therapy such as the beta blocker issue many cardiologists are presently grappling with. The book provides practical advice on how to manage cardiac diseases and addresses the choice of one particular cardiac agent vs. another. Authored by three prominent specialists in the field, this text provides comprehensive coverage of diagnostic and treatment modalities for optimal glaucoma management. Revised throughout, this new edition presents the latest guidance in clinical examination, randomized trials, medical treatment, laser therapy, and surgical procedures. Hundreds of illustrations—with many classic black and white figures from the previous editions supplemented with new color images—depict the features of glaucomas and step-by-step procedures for their management, while expanded use of highlighted boxes, lists, and summary tables make the material easy to access. Evidence-based and updated information on all aspects of the glaucomas—including physiology, genetics, interventional trials, and new surgical techniques—offer a well-rounded foundation of knowledge for making the most informed diagnoses and choosing the most effective course of treatment. Combines the cumulative experience of three prominent glaucoma specialists—addressing a full range of clinical needs for practitioners of all levels—for a uniquely written coherent perspective. Includes extensive references to current and historically important sources

**to provide comprehensive interpretation of the latest medical literature. Synthesizes a classical approach to the glaucomas—based on seven earlier editions spanning over 40 years—with the most up-to-date evidence-based and epidemiologically-derived classifications and outcomes. Coherently correlates with authoritative consensus documents on key areas of glaucoma, drawn up by the world-wide specialists of the World Glaucoma Association, and reprinted in the text. Revamps traditional teachings on the angle closure glaucomas, in concert with the newest international literature and technologies, to keep you up to date on the latest advances. Illustrates detailed surgical interventions applicable to the complete spectrum of clinical settings—from the developing world through contemporary operating rooms. Examines the newest and most promising developments in pharmacology, laser and surgical advances for glaucoma management, to enable you to choose the most effective patient approach. Illustrates invaluable but little-known instruments for clinical and research diagnoses, including optic nerve cupping scales, bleb assessment instruments, and more. Print+CourseSmart Focusing on children from infancy to adolescence, Occupational Therapy for Children and Adolescents, 7th Edition provides comprehensive, full-color coverage of pediatric conditions and treatment techniques in all settings. Its emphasis on evidence-based practice includes updated references, research notes, and explanations of the evidentiary basis for specific interventions. And coverage of new research and theories, new techniques, and current trends, with additional case studies, keeps you in step with the latest advances in pediatric OT practice. Written by educators Jane Case-Smith and Jane Clifford O'Brien, this text is the Number One book in pediatric OT! Case studies help you apply concepts to actual situations you may encounter in practice. Research Notes boxes and evidence-based summary tables help you interpret evidence and strengthen your clinical decision-making skills. Learning resources on Evolve include video clips, review activities, and additional case studies. Learning objectives indicate what you will be learning in each chapter and serve as checkpoints in studying for examinations. A glossary makes it easy to look up key terms. NEW video clips and case studies on the Evolve website demonstrate important concepts and rehabilitation techniques. NEW Autism Spectrum Disorder chapter contains important information for OTs not addressed in other texts. NEW Neuromotor: Cerebral Palsy chapter addresses the most prevalent cause of motor dysfunction in children. NEW Adolescent Development chapter helps you manage the special needs of teenagers and young adults. NEW contemporary design includes full-color photos and illustrations. UPDATED content and references ensure you have access to the comprehensive, research-based information that will guide you in making optimal decisions in practice. Offers examples, guidelines,**

insights, and ideas that demonstrate how group leaders can apply the basic issues and key concepts of the group process to a variety of groups. This work features a focus on group work with children, the elderly, issues in both women's and men's groups and in school settings. With engaging coverage of core nutrition concepts and up-to-date clinical content, Cataldo, DeBruyne, and Whitney's text provides the ideal introduction to nutrition and diet therapy. From basic facts and practical information to assessments and case studies, this Sixth Edition provides the contemporary and comprehensive approach you need to gain knowledge and achieve confidence in the course. Increase your awareness and understanding of a holistic view of mental health care with this book for nurses and other health care professionals. Each chapter covers a specific psychological or psychosocial problem as well as the most current interventions and treatments. This edition features full-color illustrations, updated drug information, and a chapter on complementary and alternative therapies, in addition to more case studies to help you apply the content to real life. This solid background in mental health is just what you need to work comfortably with clients who exhibit both effective and maladaptive behaviors. Multidisciplinary care plans for sample clients show how members of the health care team work together. Client-specific case studies highlight particular mental disorders and help you apply chapter content to real-life situations. "Think About boxes throughout the text strengthen your critical-thinking skills. UNIQUE "Drug Alert boxes highlight what you need to know about a wide range of specific psychotherapeutic medications. UNIQUE Standard LPN full-color design and "Content Threads point out key information and special features in each chapter, consistent with the format of other books in the LPN Threads series. Appendixes give you easy access to mental health care standards, DSM-IV TR diagnoses, and assessment tools that are essential for providing quality care. FREE workbook at the end of the book includes crossword puzzles, multiple-choice questions, and other exercises to boost your comprehension of the material. FULL-COLOR illustrations make the text even more visually appealing and user-friendly. Additional case studies help you apply chapter content to more real-life scenarios such as chronic illness and substance abuse with accompanying questions to test your critical-thinking skills. Chapter on complementary and alternative therapies increases your awareness of the benefits and risks of alternative therapies such as ayurveda, herbal supplements, massage, meditation, acupuncture, and telemedicine. Forensic nursing content familiarizes you with the prevention and treatment of violence-based disorders and shows you how to obtain and document evidence for legal purposes. NEW antianxiety and antimanic drug information keeps you up-to-date on the latest psychotropic medications. Counseling: A Comprehensive

Profession, 8e, has been adapted in order to make it relevant in the Indian context, without disturbing the original structure and content. The text presents counseling in a broad manner covering its history, theories, activities, specialties and trends. In addition, this text concentrates on the multicultural, ethical and legal environments in which counselors operate. This adaptation title provides the much-needed interdisciplinary approach to counseling in the Indian context. Several concepts and developments in the current scenario of counseling in India have been accommodated in the present edition. The book hopes to increase recognition and acceptance of 'counseling as a profession' in India and encourage further growth and development of research in counseling in the immediate future. Widely known and appreciated for its simplicity, clarity, and brevity, THE ELEMENTS OF COUNSELING provides a simple conceptual framework for thinking about counseling. Covering the basic elements of counseling in an abbreviated outline format, Meier and Davis use counselor/client dialog to introduce students to counseling skills and effectively demonstrate each necessary skill in a 'real world' setting. THE ELEMENTS OF COUNSELING presents information that is essential both for beginning counselors to know, and for experienced counselors to remember. Meier and Davis address key topics including relationship building, the counseling process, self-exploration, and the foundations upon which further intervention is laid. Furthermore, the authors go back to basics by addressing what counseling is, as well as what it is not. The result is a handy primer that gives students the framework upon which to build their counseling knowledge. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

Group Counseling: Strategies and Skills provides readers with a comprehensive exploration of group counseling with emphasis on critical techniques for effective group leadership. The text is known for being hands-on and reader friendly. It successfully marries traditional theories and concepts with valuable strategies and sage advice that prepares group leaders for impactful practice. Readers also receive access to videos that show leaders demonstrating the skills discussed in the book. The ninth edition features new content related to the social justice movement as well as leading groups during times of crisis such as the global pandemic that began in 2020. Each chapter has been updated to include learning objectives, information on leading groups virtually, and case studies. The section about leading groups of children and adolescents has been expanded, and references throughout the text have been updated. Group Counseling is an indispensable resource for practicing or future counselors, social workers, psychologists, and others who currently lead or are preparing to lead groups in a variety of settings. Completely updated, the

most widely used and critically acclaimed text on multicultural counseling, **Counseling the Culturally Diverse: Theory and Practice, Fifth Edition** offers students and professionals essential and thought-provoking material on the theory, research, and practice of multicultural counseling. Authors Derald Wing Sue and David Sue—pioneers in this field—define and analyze the meaning of diversity and multiculturalism and include coverage of racial/ethnic minority groups as well as multiracial individuals, women, gays and lesbians, the elderly, and those with disabilities. The Fifth Edition of this classic resource introduces new research and concepts, discusses future directions in the field, and includes updated references. New and important highlights include: Opening personal narratives in Chapter 1 that present poignant journeys in cultural competence Cutting-edge material related to the most recent research, theoretical formulations, and practice implications Discussion of unconscious and subtle manifestations of racial, gender, and sexual orientation bias and discrimination known as microaggressions Coverage of social justice counseling Content on minority group therapists Attention to counseling and special circumstances involving racial/ethnic populations With its unique conceptual framework for multicultural therapy, **Counseling the Culturally Diverse: Theory and Practice, Fifth Edition** remains the best source of real-world counseling preparation for students as well as the most enlightened, influential guide for professionals. A comprehensive textbook of radiotherapy and related radiation physics and oncology for use by all those concerned with the uses of radiation and cytotoxic drugs in the treatment of patients with malignant diseases. This current, engaging, and practice-oriented text is your complete resource for mastering the many facets of family therapy. In this eighth edition, the authors provide practice-oriented content that will help you become an empathic and effective family therapist. The new edition includes the latest references and contemporary thinking on central issues such as family resiliency, alternative forms of family life today, gender, culture, and ethnic considerations. A new feature, **Thinking like a Clinician**, helps students to reflect on practice issues related to each chapter. This edition also contains the American Association for Marriage and Family Therapy Code of Ethics--a great reference that will help you understand the importance of ethical practices. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version. Since its first publication in 1988, **Assessment Procedures for Counselors and Helping Professionals** has become a classic among assessment textbooks designed specifically for aspiring counselors. Now in its Eighth Edition the text includes extensive changes to content and updating throughout, while maintaining its popular, easy-to-read format and continuing emphasis on assessment information

that is most useful and relevant for school counselors, marriage and family therapists, mental health counselors, and other helping professionals. Throughout the text, readers learn the essential topics; see clearly how the elements of assessment interact; apply the material to the major instruments used in counseling; reinforce learning through discussion questions and activities; and get invaluable information and examples about widely used assessment instruments in order to become familiar with these well-known tests. A classic since its first publication nearly 25 years ago, *Stoelting's Anesthesia and Co-Existing Disease*, 7th Edition, by Drs. Roberta L. Hines and Katherine E. Marschall, remains your go-to reference for concise, thorough coverage of pathophysiology of the most common diseases and their medical management relevant to anesthesia. To provide the guidance you need to successfully manage or avoid complications stemming from pre-existing conditions there are detailed discussions of each disease, the latest practice guidelines, easy-to-follow treatment algorithms, and more. Presents detailed discussions of common diseases, as well as highlights of more rare diseases and their unique features that could be of importance in the perioperative period. Examines specific anesthesia considerations for special patient populations—including pediatric, obstetric and elderly patients. Features abundant figures, tables, diagrams, and photos to provide fast access to the most pertinent aspects of every condition and to clarify critical points about management of these medical illnesses. Ideal for anesthesiologists in practice and for anesthesia residents in training and preparing for boards. Includes brand new chapters on sleep-disordered breathing, critical care medicine and diseases of aging as well as major updates of nearly all other chapters. Covers respiratory disease in greater detail with newly separated chapters on Sleep Disordered Breathing; Obstructive Lung Disease; Restrictive Lung Disease; and Respiratory Failure. Provides the latest practice guidelines, now integrated into each chapter for quick reference. Each chapter in *The Counselor and the Law* has been updated to reflect changes in the 2014 ACA Code of Ethics, findings of recent court cases, and new federal and state legislation. Attorney Nancy Wheeler and Burt Bertram, a private practitioner and counselor educator, provide a comprehensive overview of the law as it pertains to counseling practice; an in-depth look at counselors' legal and ethical responsibilities; and an array of risk management strategies. This edition contains a thoroughly updated chapter on distance counseling, technology, and social media; regulatory updates to the HIPAA and the HITECH Act; and recent case law developments regarding legal risks for counselor educators. The issues surrounding civil malpractice liability, licensure board complaints, confidentiality, duty to warn, suicide and threats of harm to self, professional boundaries, records and

documentation, and managing a counseling practice are also addressed in detail. \*Requests for digital versions from the ACA can be found on [wiley.com](http://wiley.com). \*To request print copies, please visit the ACA website here. \*Reproduction requests for material from books published by ACA should be directed to [permissions@counseling.org](mailto:permissions@counseling.org). This is the eBook of the printed book and may not include any media, website access codes, or print supplements that may come packaged with the bound book. This guide is designed to assist therapists in training—mental health counselors, psychologists, social workers, school counselors, substance abuse counselors, psychotherapists, and peer helpers—in the process of finding a theoretical orientation congruent with their own personal values. In it, readers get a look at the theory and practices involved in the process; a concise, helpful reminder/overview of the major theories of counseling; and specific learning activities, reflection questions, and case examples interspersed throughout. Unique to this book are the authors' Intentional Theory Selection (ITS) model, a contemporary model for selecting a theoretical orientation congruent with one's personal values, and the Selective Theory Sorter-Revised (STS-R), a survey for discovering which research theories a counselor might endorse. Updated throughout, the Third Edition focuses on assisting clinicians further in finding their theoretical orientation in a diverse society while enjoying the self-exploration process. The authors have presented the ITS model and the STS-R at many professional conferences, incorporating the feedback into the new edition. Based on the authors' extensive experience in crisis intervention and teaching crisis intervention courses, this authoritative text presents the latest skills and techniques for handling crisis situations. **CRISIS INTERVENTION STRATEGIES, 8th Edition** features the authors' task model, which illustrates and elucidates the process of dealing with people in crisis. Using this model, the authors build specific strategies for handling a myriad of different crisis situations, accompanied in many cases with dialogue that a practitioner might use when working with the individual in crisis. Two new chapters systematically illuminate the topics of families in crisis and legal and ethical issues in crisis intervention. Important Notice: Media content referenced within the product description or the product text may not be available in the eBook version. Part of the renowned **The Basics** series, **Nuclear Medicine Physics** helps build foundational knowledge of how and why things happen in the clinical environment. Ideal for board review and reference, the 8th edition provides a practical summary of this complex field, focusing on essential details as well as real-life examples taken from nuclear medicine practice. New full-color illustrations, concise text, essential mathematical equations, key points, review questions, and useful appendices help you quickly master challenging concepts in nuclear

medicine physics. Long regarded as the undisputed leading text of its kind, **Miller's Basics of Anesthesia** provides comprehensive yet concise coverage of both basic science and clinical topics in anesthesiology. Under the experienced editorial leadership of Dr. Manuel C. Pardo, Jr., the 8th Edition has been meticulously updated to reflect the latest advances in practice and important aspects of contemporary anesthesia care, including pathophysiology, pharmacology, regional anesthesia, anesthetic management, and special problems and patient groups. It remains the first learning resource of choice for anesthesia providers, including anesthesia residents and fellows, medical students, and student registered nurse anesthetists, and is also a valuable review tool for practitioners undergoing maintenance of certification or recertification. Features a reader-friendly format with color-coded section tabs, easy-to-read chapters, and a concise writing style, along with color patterns in every chapter for quick navigation. Contains new chapters on Clinician Well-Being, Perioperative Point-of-Care Ultrasound, Environmental Impact of Anesthetics, and Perioperative Medicine. Covers key topics such as anesthesia neurotoxicity, palliative care, sleep medicine, trauma, and much more. Includes high-quality images that offer a detailed visual understanding of complex topics, while numerous figures and tables condense material for easier retention and review. Shares the knowledge and experience of renowned anesthesia expert Dr. Manuel C. Pardo, Jr. and a team of more than 80 global contributing authors. Serves both as an initial learning resource and a useful tool for solidifying the essential "must know information and reviewing core knowledge for maintenance of certification. Designed to help students become effective, reflective practitioners, this fully updated edition of the most widely used occupational therapy text for the course continues to emphasize the "whys" as well as the "how-tos" of holistic assessment and treatment. Now in striking full color and co-edited by renowned educators and authors Diane Powers Durette and Sharon Gutman, **Occupational Therapy for Physical Dysfunction, Eighth Edition** features expert coverage of the latest assessment techniques and most recent trends in clinical practice. In addition, the book now explicitly integrates "Frames of Reference" to help students connect theories to practice and features a new six-part organization, thirteen all-new chapters, new pedagogy, and more. With coverage of current issues and the latest therapeutic advances, **Robinson's Current Therapy in Equine Medicine, Volume 7** provides a concise, all-new reference for the management of equine disorders and conditions. Chapters emphasize the practical aspects of diagnosis and treatment and provide details for therapeutic regimens. This new volume brings you thorough coverage and authoritative advice on selected topics in areas that have seen significant advances in the last five years. Cutting-edge

**topics include emerging and exotic infectious diseases that may endanger horses in North America; biosecurity strategies; imaging updates; medical genetics; multimodal pain management; and regenerative, geriatric, and oncologic medicine. A logical body-system organization will save you time in finding the information you need. From well-known editors Kim Sprayberry and N. Edward Robinson, with chapters written by nearly 200 equine experts, this invaluable reference provides unparalleled guidance on the latest issues in equine medicine. Key topics include all-new coverage of the latest developments in imaging, biosecurity strategies for individual horse owners and owners of commercial farms and stables, diseases affecting horses at various ages, and a review of colic and other GI tract conditions. A recognized panel of nearly 200 expert contributors represents thriving private equine practices, referral hospitals, and academia, and provides insight on challenges, developments, and differing perspectives from around the world. A succinct approach is used to discuss pathophysiology and diagnosis, but therapeutics are covered in detail. The Current Therapy format focuses on emerging trends, treatment protocols, and diagnostic updates new to the field, providing timely information on the latest advances in equine medicine. A body systems organization makes it easy to find solutions for specific disorders. Suggested readings at the end of each chapter cite peer-reviewed articles and other sources for further research and study. ALL-NEW topics provide updates on infectious diseases, including herpesvirus, equine granulocytic anaplasmosis, and lawsonia infection and proliferative enteropathy; pain diagnosis and multimodal management; management of thoracic and airway trauma, imaging, endoscopy, and other diagnostic procedures for the acute abdomen; and neurologic injury. 212 concise, NEW chapters include both a succinct guide to diagnosis of disorders and a detailed discussion of therapy. NEW images demonstrate advances in various imaging techniques. Thoroughly updated drug appendices, including all-new coverage of drug dosages for donkeys and mules, provide a handy, quick reference for the clinical setting.**
