**The Cambridge Handbook of Political Psychology** May 23 2020 The Cambridge Handbook of Political Psychology provides a comprehensive review of the psychology of political behaviour from an international perspective. Its coverage spans from foundational approaches to political psychology, including the evolutionary, personality and developmental roots of political attitudes, to contemporary challenges to governance, including populism, hate speech, conspiracy beliefs, inequality, climate change and cyberterrorism. Each chapter features cutting-edge research from internationally renowned scholars who offer their unique insights into how people think, feel and act in different political contexts. By taking a distinctively international approach, this handbook highlights the nuances of political behaviour across cultures and geographical regions, as well as the truisms of political psychology that transcend context. Academics, graduate students and practitioners alike, as well as those generally interested in politics and human behaviour, will benefit from this definitive overview of how people shape - and are shaped by - their political environment in a rapidly changing twenty-first century.

The Oxford Handbook of Terrorism Nov 09 2021 The Oxford Handbook of Terrorism systematically integrates the substantial body of scholarship on terrorism and counterterrorism before and after 9/11.

In doing so, it introduces scholars and practitioners to state of the art approaches, methods, and issues in studying and teaching these vital phenomena. This Handbook goes further than most existing collections by giving structure and direction to the fast-growing but somewhat disjointed field of terrorism studies. The volume locates terrorism within the wider spectrum of political violence instead of engaging in the widespread tendency towards treating terrorism as an exceptional act. Moreover, the volume makes a case for studying terrorism within its socio-historical context. Finally, the volume addresses the critique that the study of terrorism suffers from lack of theory by reviewing and extending the theoretical insights contributed by several fields - including political science, political economy, history, sociology, anthropology, criminology, law, geography, and psychology. In doing so, the volume showcases the analytical advancements and reflects on the challenges that remain since the emergence of the field in the early 1970s.

*The Oxford Handbook of Canadian Politics* Nov 16 2019 The Oxford Handbook of Canadian Politics provides a comprehensive overview of the transformation that has occurred in Canadian politics since it achieved autonomy nearly a century ago, examining the institutions and processes of Canadian government and politics at the local, provincial and federal levels. It analyzes all aspects of the Canadian political system: the courts, elections, political parties, Parliament, the constitution, fiscal and political federalism, the diffusion of policies between regions, and various aspects of public policy.

*Routledge Handbook of Politics in Asia* Oct 16 2019 The Routledge Handbook of Politics in Asia is designed to serve as a comprehensive reference guide to politics in Asia. Covering East, South, Southeast, and Central Asia, this handbook brings together the work of leading international academics to cover the political histories, institutions, economies, and cultures of the region. Taking a

comparative approach, it is divided into four parts, including: A thorough introduction to the politics of the four regions of Asia from the perspectives of democratization, foreign policy, political economy, and political culture. An examination of the "Big Three" of Asia – China, India, and Japan – focusing on issues including post-Mao reform, China's new world outlook, Indian democracy, and Japanese foreign policy. A discussion of important contemporary issues, such as human rights, the politics of the internet, security, nationalism, and geopolitics. An analysis of the relationship between politics and certain theoretical ideas, such as Confucianism, Hinduism, socialist constitutionalism, and gender norms. As an invaluable and all-inclusive resource, this handbook will be useful for students, scholars, researchers, and practitioners of Asian politics and comparative politics.

**Handbook of Education Politics and Policy** Nov 28 2020 This revised edition of the Handbook of Education Politics and Policy presents the latest research and theory on the most important topics within the field of the politics of education. Well-known scholars in the fields of school leadership, politics, policy, law, finance, and educational reform examine the institutional backdrop to our educational system, the political behaviors and cultural influences operating within schools, and the ideological and philosophical positions that frame discussions of educational equity and reform. In its second edition, this comprehensive handbook has been updated to capture recent developments in the politics of education, including Race to the Top and the Common Core State Standards, and to address the changing role politics play in shaping and influencing school policy and reform. Detailed discussions of key topics touch upon important themes in educational politics, helping leaders understand issues of innovation, teacher evaluation, tensions between state and federal lawmakers over new reforms and testing, and how to increase student achievement. Chapter authors also provide suggestions for improving the political behaviors of key educational groups and individuals with the

hope that an understanding of political goals, governance processes, and policy outcomes may contribute to ongoing school reform.

**The Routledge Handbook of French Politics and Culture** Dec 10 2021 The Routledge Handbook of French Politics and Culture provides a detailed survey of the highly differentiated field of research on French politics, society and culture across the social sciences and humanities. The handbook includes contributions from the most eminent authors in their respective fields who bring their authority to bear on the task of outlining the current state-of-the art research in French Studies across disciplinary boundaries. As such, it represents an innovative as well as an authoritative survey of the field, representing an opportunity for a critical examination of the contrasts and the continuities in methodological and disciplinary orientations in a single volume. The Routledge Handbook of French Politics and Culture will be essential reading and an authoritative reference for scholars, students, researchers and practitioners involved in, and actively concerned about, research on French politics, society and culture.

*Handbook of Research on Politics in the Computer Age* May 03 2021 Technology and particularly the Internet have caused many changes in the realm of politics. Aspects of engineering, computer science, mathematics, or natural science can be applied to politics. Politicians and candidates use their own websites and social network profiles to get their message out. Revolutions in many countries in the Middle East and North Africa have started in large part due to social networking websites such as Facebook and Twitter. Social networking has also played a role in protests and riots in numerous countries. The mainstream media no longer has a monopoly on political commentary as anybody can set up a blog or post a video online. Now, political activists can network together online. The Handbook of Research on Politics in the Computer Age is a pivotal reference source that serves to

increase the understanding of methods for politics in the computer age, the effectiveness of these methods, and tools for analyzing these methods. The book includes research chapters on different aspects of politics with information technology, engineering, computer science, or math, from 27 researchers at 20 universities and research organizations in Belgium, Brazil, Cape Verde, Egypt, Finland, France, Hungary, Italy, Mexico, Nigeria, Norway, Portugal, and the United States of America. Highlighting topics such as online campaigning and fake news, the prospective audience includes, but is not limited to, researchers, political and public policy analysts, political scientists, engineers, computer scientists, political campaign managers and staff, politicians and their staff, political operatives, professors, students, and individuals working in the fields of politics, e-politics, e-government, new media and communication studies, and Internet marketing.

*The Oxford Handbook of American Elections and Political Behavior* Jul 25 2020 The Oxford Handbooks of American Politics are the essential guide to the study of American political life in the 21st Century. With engaging contributions from the major figures in the field *The Oxford Handbook of American Elections and Political Behavior* provides the key point of reference for anyone working in American Politics today

*The Oxford Handbook of Mexican Politics* Jul 17 2022 A comprehensive view of the remarkable transformation of Mexico's political system to a democratic model. The contributors to this volume assess the most influential institutions, actors, policies and issues in the country's current evolution toward democratic consolidation.

*The Routledge Handbook of Translation and Politics* Feb 24 2023 The Routledge Handbook of Translation and Politics presents the first comprehensive, state of the art overview of the multiple ways in which 'politics' and 'translation' interact. Divided into four sections with thirty-three chapters

written by a roster of international scholars, this handbook covers the translation of political ideas, the effects of political structures on translation and interpreting, the politics of translation and an array of case studies that range from the Classical Mediterranean to contemporary China. Considering established topics such as censorship, gender, translation under fascism, translators and interpreters at war, as well as emerging topics such as translation and development, the politics of localization, translation and interpreting in democratic movements, and the politics of translating popular music, the handbook offers a global and interdisciplinary introduction to the intersections between translation and interpreting studies and politics. With a substantial introduction and extensive bibliographies, this handbook is an indispensable resource for students and researchers of translation theory, politics and related areas.

Handbook of Political Anthropology Jul 05 2021 This Handbook engages the reader in the major debates, approaches, methodologies, and explanatory frames within political anthropology. Examining the shifting borders of a moving field of enquiry, it illustrates disciplinary paradigm shifts, the role of humans in political structures, ethnographies of the political, and global processes. Reflecting the variety of directions that surround political anthropology today, this volume will be essential reading to understanding the interactions of humans within political frames in a globalising world.

The Oxford Handbook of Southern Politics Dec 22 2022 The twenty-three essays included in The Oxford Handbook of Southern Politics present a definitive view of the factors that contribute to the South's distinctive politics, examining these factors in the context of the region's political development since World War II.

*The Oxford Handbook of Comparative Politics* Jun 16 2022 The Oxford Handbook of Comparative Politics offers a critical survey of the field of empirical political science through the collection of a set

of chapters written by 48 top scholars in the discipline of comparative politics

**Routledge Handbook of Politics and Technology** Oct 20 2022 This handbook provides a comprehensive global survey of the politics of technology. Written by an outstanding line up of distinguished scholars in the field, the handbook covers all aspects of the relationship between politics and technology including: Demand and support for new technologies and innovation by the state The effects of technology policies Technology development and innovation difference between various countries and regions Policy instruments and techno-industrial innovation Dynamism and change as outcomes of government policies Driving forces for science and innovative development Forming the basis of this handbook are examples of regional development, country studies and a rich variety of technologies, as well as topical issues such as divergent political interests in relation to technology and the economic exploitation of technologies. Employing a comparative and interdisciplinary approach in order to analyse the interplay between government activities and the development of new technologies, this handbook will be an invaluable resource for all students, scholars and practitioners working in the politics of technology, public policy and policy analysis.

*The Oxford Handbook of Political Methodology* Aug 26 2020 The Oxford Handbooks of Political Science are the essential guide to the state of political science today. With engaging contributions from major international scholars The Oxford Handbook of Political Methodology provides the key point of reference for anyone working throughout the discipline.

*Handbook of China's Governance and Domestic Politics* Apr 02 2021 This Handbook provides an in-depth overview of how China is governed, how its domestic political system functions and the critical issues that it currently faces. Governed by the world's largest political party in the world's longest-ruling Communist regime, China is undergoing a transitional period of rapid economic and social

development. How this period is managed will have significant implications for the Chinese state and its population concerning China's governance structures and economy, as well as the country's justice, public health, education and internal/external security concerns. This transition to a modern state is not without its challenges – particularly in terms of how the Chinese state deals with diverse issues such as social inequality, corruption, separatism, increasing individualism and political reform. China's governance and domestic politics also have possible major global consequences, especially in the context of China's continued rise within the international system. This Handbook will improve understandings of the core national dynamics of this rise and, as levels of international interdependence with China increase, can offer vital insights concerning China's domestic attributes. Gaining a better knowledge of China's internal workings can also help better appreciate the multiple and varied problems that China's leaders will face in the coming decades. Critically, many of the core internal issues facing China also have potential external repercussions, principally in terms of rising social unrest, nationalism, environmental degradation, resource shortages and attitudes towards globalization. This book aims to cover these issues and will help readers to fully comprehend China's ongoing contemporary global significance.

*The Oxford Handbook of Political Economy* May 15 2022 Over its lifetime, 'political economy' has had different meanings. This handbook views political economy as a synthesis of the various strands of social science, treating it as the methodology of economics applied to the analysis of political behaviour and institutions.

Handbook on the Politics of Higher Education Jan 11 2022 Understanding the politics of Higher Education is becoming more important as the sector is increasingly recognised as a vital source of innovation, skills, economic prosperity, and personal wellbeing. Yet key political differences remain

over such issues as who should pay for higher education, how should it be accountable, and how we measure its quality and productivity. Particularly, are states or markets the key in helping to address such matters. The Handbook provides framing perspectives and perspectives, chapters on funding, governance and regulation, and pieces on the political economy of higher education and on the increased role of external stakeholders and indicators.

The Oxford Handbook of Political Theory Jan 31 2021 Oxford Handbooks of Political Science are the essential guide to the state of political science today. With engaging contributions from 51 major international scholars, the Oxford Handbook of Political Theory provides the key point of reference for anyone working in political theory and beyond.

The Oxford Handbook of Religion and American Politics Oct 08 2021 This handbook examines the considerable research that has been conducted into the study of religion and politics. It reviews previous work, explains the findings of that research and speculates about the bases of the various findings.

The Oxford Handbook of Political Behavior Apr 14 2022 This Oxford Handbook assembles the world's leading scholars on public opinion and political behavior to describe the state-of-the-art research on the beliefs, values and behaviors of contemporary publics. It will become the first point of reference for scholars and students interested in these key issues.

*The Routledge Handbook of Scandinavian Politics* Jan 19 2020 The Routledge Handbook of Scandinavian Politics is a comprehensive overview of Scandinavian politics provided by leading experts in the field and covering the polity, the politics and the policy of Scandinavia. Coherently structured with a multi-level thematic approach, it explains and details Scandinavian politics today through a series of cutting-edge chapters. It will be a key reference point both for advanced-level

students developing knowledge about the subject, as well as researchers producing new material in the area and beyond. It brings geographical scope and depth, with comparative chapters contributed by experts across the region. Methodologically and theoretically pluralistic, the handbook is in itself a reflection of the field of political science in Scandinavia and the diversity of the issues covered in the volume. The Routledge Handbook of Scandinavian Politics will be an essential reference for scholars, students, researchers and practitioners interested and working in the fields of Scandinavian politics, European politics, comparative politics and international relations.

A Hand-book of Politics for ... Feb 12 2022

*Handbook of Party Politics* Feb 18 2020 ?This thoughtful and wide-ranging review of parties and party research contains contributions from many of the foremost party scholars and is a must for all library shelves? - Richard Luther, Keele University ?The study of political parties has never been livelier and this genuinely international Handbook – theoretically rich, comparatively informed, and focused on important questions – defines the field. This volume is both an indispensable summary of what we know and the starting point for future research? - R K Carty, University of British Columbia ?Political parties are ubiquitous, but their forms and functions vary greatly from regime to regime, from continent to continent, and from era to era. The Handbook of Party Politics captures this variation and richness in impressive ways. The editors have assembled an excellent team, and the scope of the volume is vast and intriguing? - Kaare Strom, University of California, San Diego Political parties are indispensable to democracy and a central subject of research and study in political science around the world. This major new handbook is the first to comprehensively map the state-of-the-art in contemporary party politics scholarship. The Handbook is designed to: - provide an invaluable survey of the major theories and approaches in this dynamic area of study and research - give students and

researchers a concise 'road map' to the core literatures in all the sub-fields of party related theorizing and research - identify the theories, approaches and topics that define the current 'cutting edge' of the field. The Handbook is comparative in overall approach but also addresses some topics to be addressed in nationally or regionally specific ways. The resulting collaboration has brought together the world's leading party theorists to provide an unrivalled resource on the role of parties in the pressing contemporary problems of institutional design and democratic governance today.

*The Oxford Handbook of Italian Politics* Sep 07 2021 The Oxford Handbook of Italian Politics provides a comprehensive look at the political life of one of Europe's most exciting and turbulent democracies. Under the hegemonic influence of Christian Democracy in the early post-World War II decades, Italy went through a period of rapid growth and political transformation. In part this resulted in tumult and a crisis of governability; however, it also gave rise to innovation in the form of Eurocommunism and new forms of political accommodation. The great strength of Italy lay in its constitution; its great weakness lay in certain legacies of the past. Organized crime--popularly but not exclusively associated with the mafia--is one example. A self-contained and well entrenched 'caste' of political and economic elites is another. These weaknesses became apparent in the breakdown of political order in the late 1980s and early 1990s. This ushered in a combination of populist political mobilization and experimentation with electoral systems design, and the result has been more evolutionary than transformative. Italian politics today is different from what it was during the immediate post-World War II period, but it still shows many of the influences of the past.

**The Oxford Handbook of Political Institutions** Nov 21 2022 The study of political institutions is among the founding pillars of political science. With the rise of the 'new institutionalism', the study of institutions has returned to its place in the sun. This volume provides a comprehensive survey of where

we are in the study of political institutions, covering both the traditional concerns of political science with constitutions, federalism and bureaucracy and more recent interest in theory and the constructed nature of institutions. The Oxford Handbook of Political Institutions draws together a galaxy of distinguished contributors drawn from leading universities across the world. Authoritative reviews of the literature and assessments of future research directions will help to set the research agenda for the next decade.

**The Dictator's Handbook** Mar 13 2022 Explains the theory of political survival, particularly in cases of dictators and despotic governments, arguing that political leaders seek to stay in power using any means necessary, most commonly by attending to the interests of certain coalitions.

*The Oxford Handbook of Global Health Politics* Dec 18 2019 Protecting and promoting health is inherently a political endeavor that requires a sophisticated understanding of the distribution and use of power. Yet while the global nature of health is widely recognized, its political nature is less well understood. In recent decades, the interdisciplinary field of global health politics has emerged to demonstrate the interconnections of health and core political topics, including foreign and security policy, trade, economics, and development. Today a growing body of scholarship examines how the global health landscape has both shaped and been shaped by political actors and structures. The Oxford Handbook of Global Health Politics provides an authoritative overview and assessment of research on this important and complicated subject. The volume is motivated by two arguments. First, health is not simply a technical subject, requiring evidence-based solutions to real-world problems, but an arena of political contestation where norms, values, and interests also compete and collide. Second, globalization has fundamentally changed the nature of health politics in terms of the ideas, interests, and institutions involved. The volume comprises more than 30 chapters by leading experts in global

health and politics. Each chapter provides an overview of the state of the art on a given theoretical perspective, major actor, or global health issue. The Handbook offers both an excellent introduction to scholars new to the field and also an invaluable teaching and research resource for experts seeking to understand global health politics and its future directions.

The Oxford Handbook of Water Politics and Policy Jun 04 2021 This handbook is currently in development, with individual articles publishing online in advance of print publication. At this time, we cannot add information about unpublished articles in this handbook, however the table of contents will continue to grow as additional articles pass through the review process and are added to the site. Please note that the online publication date for this handbook is the date that the first article in the title was published online. For more information, please read the site FAQs.

**The Oxford Handbook of Urban Politics** Aug 18 2022 The Oxford Handbook of Urban Politics is an authoritative volume on an established subject in political science and the academy more generally: urban politics and urban studies. The editors are all recognized experts, and are well connected to the leading scholars in urban politics. The handbook covers the major themes that animate the subfield: the politics of space and place; power and governance; urban policy; urban social organization; citizenship and democratic governance; representation and institutions; approaches and methodology; and the future of urban politics. Given the caliber of the editors and proposed contributors, the volume sets the intellectual agenda for years to come.

**Handbook of Oil Politics** Sep 26 2020 These days, one would have a difficult time picking up a newspaper, or watching a newscast that did not have a lead story dealing with some aspect of oil. From instability in the Middle East, to stock market crashes and concerns over the health of the world economy, to wars that seem to break out unexpectedly around the world, to discussions of global

warming, and even speculation over the fate of mankind, oil is usually lurking somewhere in the background. To many, oil markets and their linkages to a whole spectrum of events remain something of a mystery. Unfortunately, most of the easily obtained information on oil is deeply flawed. Whole web-conspiracy sites depict ruthless insiders and reckless dictators manipulating energy markets at will. The 30 essays in this volume, written by the leading experts in the field, attempt to set the record straight. While their assessments may lack the sensationalism of many popular pundits, serious readers will find their insights invaluable in the years to come in providing a framework for understanding many of the events of the day. The volume is divided into sections. Part I provides a broad overview of the political dimensions underlying the supply of oil. Some of the key questions addressed include: is the world running out of oil? And if so, is the cause physical scarcity or political/policy failure? Why are many of the oil-producing countries in the developing world so unstable? Can oil markets be made to provide more stability to the world system? Part II examines some of the political responses to oil-related developments. Here, the key questions concern the role of the political process in the development of alternative sources of energy. The various means through which countries approach their energy security is assessed, as is the problem of climate change. The section ends with the provocative question, do governments really need to go to war for oil? Oil production, energy markets, and the political environment produce distinct regional patterns. Part III examines oil and political power in Africa, Latin America, the Middle East and South-East Asia. Part IV expands some of the main regional themes through a series of case studies on specific countries: Iraq, Iran, Saudi Arabia, Egypt, Russia and Brazil. A final section looks to the future: will the oil curse continue for many countries? How will the growth and expansion of China affect oil prices and availabilities? Will oil-based sovereign wealth funds contribute to global stability or will they create increased political

tensions between consuming and producing countries? Will volatile oil markets undermine the US dollar as well as the global financial system? Perhaps appropriately, the volume ends with an assessment of the future of oil in a carbon constrained world. All in all, the essays in this volume cover the whole spectrum of the politics of oil. Hopefully they will help shed light on this vital, yet still often misunderstood topic. The book does not represent any particular political or ideological position. Instead, each author has sought to objectively seek a deeper understanding as to the complexity and subtlety of forces that have all too often eluded policymakers around the world.

The SAGE Handbook of Political Science Sep 19 2022 The SAGE Handbook of Political Science presents a major retrospective and prospective overview of the discipline. Comprising three volumes of contributions from expert authors from around the world, the handbook aims to frame, assess and synthesize research in the field, helping to define and identify its current and future developments. It does so from a truly global and cross-area perspective Chapters cover a broad range of aspects, from providing a general introduction to exploring important subfields within the discipline. Each chapter is designed to provide a state-of-the-art and comprehensive overview of the topic by incorporating cross-cutting global, interdisciplinary, and, where this applies, gender perspectives. The Handbook is arranged over seven core thematic sections: Part 1: Political Theory Part 2: Methods Part 3: Political Sociology Part 4: Comparative Politics Part 5: Public Policies and Administration Part 6: International Relations Part 7: Major Challenges for Politics and Political Science in the 21st Century

Handbook of Politics Jan 23 2023 Political sociology is the interdisciplinary study of power and the intersection of personality, society and politics. The field also examines how the political process is affected by major social trends as well as exploring how social policies are altered by various social forces. Political sociologists increasingly use a wide variety of relatively new quantitative and

qualitative methodologies and incorporate theories and research from other social science cognate disciplines. The contributors focus on the current controversies and disagreements surrounding the use of different methodologies for the study of politics and society, and discussions of specific applications found in the widely scattered literature where substantive research in the field is published. This approach will solidly place the handbook in a market niche that is not occupied by the current volumes while also covering many of the same theoretical and historical developments that the other volumes cover. The purpose of this handbook is to summarize state-of-the-art theory, research, and methods used in the study of politics and society. This area of research encompasses a wide variety of perspectives and methods that span social science disciplines. The handbook is designed to reflect that diversity in content, method and focus. In addition, it will cover developments in the developed and underdeveloped worlds.

The Oxford Handbook of Law and Politics Aug 06 2021 The study of law and politics is one of the foundation stones of the discipline of political science, and it has been one of the most productive areas of cross-fertilization between the various subfields of political science and between political science and other cognate disciplines. This Handbook provides a comprehensive survey of the field of law and politics in all its diversity, ranging from such traditional subjects as theories of jurisprudence, constitutionalism, judicial politics and law-and-society to such re-emerging subjects as comparative judicial politics, international law, and democratization. The Oxford Handbook of Law and Politics gathers together leading scholars in the field to assess key literatures shaping the discipline today and to help set the direction of research in the decade ahead.

The Oxford Handbook of Gender and Politics Dec 30 2020 As a field of scholarship, gender and politics has exploded over the last fifty years and is now global, institutionalized, and ever expanding.

The Oxford Handbook of Gender and Politics brings to political science an accessible and comprehensive overview of the key contributions of gender scholars to the study of politics and shows how these contributions produce a richer understanding of politics and societies. Like the field it represents, the handbook has a broad understanding of what counts as political and is based on a notion of gender that highlights masculinities as well as femininities, thereby moving feminist debates in politics beyond the focus on women. It engages with some of the key aspects of political science as well as important themes in gender and feminist research (such as sexuality and body politics), thereby forging a dialogue between gender studies in politics and mainstream political science. The handbook is organized in sections that look at sexuality and body politics; political economy; civil society; participation, representation and policymaking; institutions, states and governance as well as nation, citizenship and identity. The Oxford Handbook of Gender and Politics contains and reflects the best scholarship in its field.

The Palgrave International Handbook of Football and Politics Mar 01 2021 This Handbook offers an analysis of the relation between football and politics, based on over 30 case studies covering five continents. It provides a detailed picture of this relation in a wide number of European, American, African, and Asian states, as well as a comparative assessment of football in a global perspective, thus combining the general and the local. It examines themes such as the political origins of football in the studied country, the historical club rivalries, the political aspects of football as a sports spectacle, and the contemporary issues linked to the political use of football. By following the same structure with each study, the volume allows for the comparison between largely investigated cases and cases that have seldom been addressed. The Handbook will be of use particularly to students and scholars in the fields of sport studies, political science and sociology, as well as cultural studies, anthropology and

leisure studies.

**The Oxford Handbook of Israeli Politics and Society** Apr 21 2020 "Few countries receive as much attention as Israel and are at the same time as misunderstood. The Oxford Handbook of Israeli Politics and Society brings together leading Israeli and international figures to offer the most wide-ranging treatment available of an intriguing country. It serves as a comprehensive reference for the growing field of Israel studies and is also a significant resource for students and scholars of comparative politics, recognizing that in many ways Israel is not unique, but rather a test case of democracy in deeply divided societies and states engaged in intense conflict. The handbook presents an overview of the historical development of Israeli democracy through chapters examining the country's history, contemporary society, political institutions, international relations, and most pressing political issues. It outlines the most relevant developments over time while not shying away from the strife both in and around Israel. It presents opposed narratives in full force, enabling readers to make their own judgments"--

**The Routledge Handbook of Language and Politics** Jun 23 2020 The Routledge Handbook of Language and Politics provides a comprehensive overview of this important and dynamic area of study and research. Language is indispensable to initiating, justifying, legitimatising and coordinating action as well as negotiating conflict and, as such, is intrinsically linked to the area of politics. With 45 chapters written by leading scholars from around the world, this Handbook covers the following key areas: Overviews of the most influential theoretical approaches, including Bourdieu, Foucault, Habermas and Marx; Methodological approaches to language and politics, covering – among others – content analysis, conversation analysis, multimodal analysis and narrative analysis; Genres of political action from speech-making and policy to national anthems and billboards; Cutting-edge case studies

about hot-topic socio-political phenomena, such as ageing, social class, gendered politics and populism. The Routledge Handbook of Language and Politics is a vibrant survey of this key field and is essential reading for advanced students and researchers studying language and politics.

*The Oxford Handbook of Danish Politics* Oct 28 2020 The Oxford Handbook of Danish Politics provides the most comprehensive and thorough English language book on Danish politics ever written. It features chapters by 50 leading experts who have contributed extensively to the field they write about. Why is Denmark an interesting topic for a Handbook? In some respects, Danish political institutions and political life are very similar to that of other small, North European countries such as the other Scandinavian countries and Netherland. However, in other respects, Danish politics is interesting in its own right. For instance, Denmark has a world record in minority governments. According to standard scholarly knowledge, this should result in unstable governments and a bad economy. This is not the case, however, since Denmark has a rather stable political system and a strong and robust economy among the strongest in Europe. How? The Danes have continued reservations towards the EU despite close to 50 years of EC/EU membership, and the Danes rejected the Maastricht Treaty in 1992. Still, the EU issue is handled in ways that do not call for large political battles. How? A third example is that Denmark used to be known as a tolerant and liberal society; its Jews were almost all saved during German occupation during WWII, Denmark was the first country to free pornography, and the first country to formally register same-sex couples. Yet recent Danish politics has also been associated with xenophobia and anti-Muslim sentiments. Why?
